CAMP DESCRIPTION	Summer time fun doesn't have to mean summer learning lost! Winston Academy of Engineering and Bricks 4 Kidz Polk County present the Second Annual 2018 SUMMER OF STEM! This unique educational summer camp will keep your child thinking, building, innovating, creating, and learning all summer long. In addition to Bricks 4 Kidz® educational and interactive models, we will use high-quality learning resources and educational methods, including Agriculture, Science Experiments, 3D Printing, Robotics, Coding and Video Game Design, Archery, and Board Games for STEM-full summer.	The Lakeland Institute for Learning and Bricks 4 Kidz Polk County have teamed up to offer LEGO® BUDDIES! LEGO® BUDDIES is a hands-on summer camp for children with special needs who enjoy learning through LEGO®-based play. It encourages cooperative building with Bricks 4 Kidz® educational models made from LEGO® Bricks; as well as creative parallel building with assorted LEGO®s which, when combined with principles of Science, Technology, Engineering and Math (STEM), provide a catalyst for creativity, learning and social interactions.	"Building Bridges Through STEM, Brick by Brick" is a Summer Camp at LEGOLAND® that provides an unparalleled opportunity for local and international students to gain comprehensive educational and cultural development and networking experiences through STEM. This is a unique setting where children from different cultural backgrounds think about the role of science, technology, engineering and mathematics (STEM) and how it is applied worldwide. This STEM multicultural camp is designed to expand students' worldview about the field and to help them build bridges educationally and culturally, using LEGO® Bricks. The camp themes that we will explore in the course of three weeks are: <ul style="list-style-type: none"> • Bricks Explorer Quest • Galaxy Far Away • Engineering Adventures • Time Travel Tours • Transformation Creations • BRICK City Engineers 	STEMFuN is a hands-on summer camp offered through Bricks 4 Kidz Polk County at The Roberts Academy at FSC . Campers will learn and reinforce concepts of Science, Technology, Engineering and Math (STEM), in a setting that is consistent with our current Roberts Academy after-school program. This is a unique camp that encourages imagination and innovation. Campers will have a chance to channel their inner creativity, interests and expressions. They will have the opportunity to work together, learn team building skills, get creative and solve problems using Bricks 4 Kidz® LEGO® bricks models and other STEM learning resources - all while having fun! The camp themes that we will randomly explore are: <ul style="list-style-type: none"> • Animal Grossology • BRICK City Engineers • Space Adventures • Jurassic Brick Land 	Making connections between the sport of tennis and STEM in a fun-filled environment is an amazing way to teach complex concepts through concrete experiences. Our diverse mix of activities will have your child excited, challenged and active throughout this 4-week summer camp! Galindo Tennis International Academy and Bricks 4 Kidz Polk County have teamed up to combine STEM learning and sports to help children develop critical-thinking, creative problem-solving, teamwork, and leadership skills that may be applied throughout their lives. This camp will teach or reinforce STEM concepts through LEGO® Bricks, using proprietary model plans by Bricks 4 Kidz®; while simultaneously teach the science behind the sport of tennis by Galindo Tennis which is a leader in training tennis players around the world. This combined approach will make an invaluable contribution in the educational and social-emotional development of your child. The camp will feature Bricks 4 Kidz most popular themes such as: <ul style="list-style-type: none"> • Star Wars • Brick Olympics • Super Hero Academy • Mining & Crafting ("Minecraft") • Pocket Brick Monsters ("Pokémon®")
